# More undergrads now own mobile web devices than desktop computers.

- In 2009, 29% accessed the web daily from a mobile device.
- In 2010, this grew to 42.6%

EDUCAUSE Center for Applied Research*

# Mobile web is ramping up faster than the fixed web did.

- Today, 21% of all phones have a 3G connection.
- This is roughly the same percentage of households with dial-up in 1998.

-  *Best for repetitious placement.*  
Microsoft TAG
-  QR Codes
-  Datamatrix
-  EZCode

# Image recognition & others.

- Mobile Augmented Reality
- Google Goggles
- hy.pr

Okay, so now what?

Gravure Publishing Council Conference  
Naples, Florida November 17-19, 2010

# Deliver Value.

- What's in it for them?
- In what context are they arriving there?
- Is it usable once they arrive?
- Is it something you would do? Enjoy?
